Callistemon House, opened in January 1997 to cater for 40 students, is situated in Katherine, approx 300 km south of Darwin.

The complex consists of two separate 20-bed residential buildings for male and female students. Each building contains a flat for the House-Parents, a sick room, ablution area and recreation room.

There are eight double and four single bedrooms in each residential building. A third building houses the kitchen, dining-room, laundry, office and other necessary facilities.

There are two common areas, one large area adjoining the dining-room for junior students, and a smaller common-room for senior students. Each common-room has a TV and IBM compatible computers with Internet access.

Students are encouraged to participate in a range of recreational activities outside of Callistemon House.
