Mount St Bernard College, located in Herberton on the Atherton Tablelands, is a co-educational college from Year 8-12 with boarding facilities for up to 100 girls. Established by the Sisters of Mercy in 1921, Mount St Bernard College strives to meet the educational needs of students from remote areas of the Far North and North West of Queensland.

Accommodation consists of shared dormitories with common ablution areas. A separate building houses the large kitchen and dining room complex where healthy, well-balanced meals are prepared daily for students.

Boarding students also have access to a games room, lounge/TV, computer labs, sporting facilities and a commercial-sized laundry, where their washing is done by staff on a daily basis.

A variety of extra-curricular activities are organized for students after school and on the weekends, including sporting, community and social activities. Boarders are encouraged to organize their own activities as much as possible, with the assistance and support of experienced boarding staff. Students are also encouraged to participate in local sporting and recreational activities.
