Spinifex State College, an Education Queensland initiative, is situated in the mining town of Mount Isa, approx 900 km west of Townsville. The Residential Campus is a co-educational facility providing a living away from home opportunity for rural and remote area students from Northern, Central and Western Queensland locations.

The complex is comprised of three wings, girls' and boys' dormitories and a recreation wing. Pool and table-tennis tables, TV, computers, stereo and DVD are located in a large area, while other rooms are used for smaller equipment, and students can play their X-boxes.

Currently the student population is 57, 18 male and 39 female. Accommodation is available in 1, 2, 4 or 6-bed rooms with en-suites. The bedrooms are fully furnished, including a lockable cupboard, large chest of drawers, desk and chair, and supplied with bedding, linen and towels, although students may bring their own linen if they prefer.

The students all attend either the Senior or the Junior Campus of Spinifex State College.
