**Contact: Manager**

Western Cape Secondary Hostel is situated in Weipa, a large mining town with a population of approx 2,500 people on the western coast of Cape Yorke Peninsula.

Twenty children attend the boarding facility which has 2 dormitory houses for boys and girls. The students are accommodated in twin-share rooms with attached shower facilities. Accommodation for the House-Parents is attached to the dormitory blocks.

The students, who all come from the Cape Yorke Peninsula region, have the use of a common TV room, dining-room and kitchen. Table-tennis tables are set up under the verandahs for use in recreation times.

Organised activities are available after school, including scouts and art work. On weekends fishing and camping excursions are organised, and students also participate in local sporting teams.

The 3 supervisors who care for the children all live on site.
