Hills International College is a quiet school with a high standard of behaviour, situated on a 650-acre property halfway between Brisbane and Beaudesert, in the Gold Coast hinterland. It offers education from prep to year 12 using the Queensland curriculum. In 2006, enrolment was just over 400 students (P-12) of which about 80 were from overseas (mainly Asian countries).

The three halls of residence consist of 8 units each, where each unit contains two bedrooms housing a maximum of four students each, a kitchenette / lounge area, and an amenities room with toilets, shower, and bath. Buffet meals are provided three times a day by the cafeteria. Laundry is done professionally several times a week.

Halls of residence students have scheduled, supervised study sessions, which includes access to our new state-of-the-art computer laboratory. The college has recently installed a wireless Internet system covering the campus.

There is a Thursday night shopping trip to the regional shopping complexes and occasional weekend excursions.

Hills has approximately 100 acres of sporting fields. There is a public exercise gymnasium and a golf club on site which students may join.
