For country students who are friendly and keen to learn and achieve their potential, great facilities at the Broome Residential College will provide a home away from home for those accepting a place at the Broome Senior High School or St Mary's College.

Opening in term 3, 2007, the College offers safe, secure accommodation where students are looked after by experienced and qualified warm, caring people who enjoy working with students and their parents. The male students live separately from the female students, but they eat together and share the same learning and recreation facilities.

Live-in male and female supervisors care for the students, and support them with their learning and personal development as part of the College community. They ensure that the students have breakfast, are showered and dressed in school uniform, and at school on time.

After school the students will have afternoon tea and change out of their school uniforms before joining in a range of recreational activities. Dinner will be followed by more recreation, supper, a quiet study time and bed time.

Weekends will be more relaxed – and hectic! Wake up and bed times are more flexible, but the days can be full of activities like sport, excursions, shopping and socials. At all times the supervisors will be either with the students or overseeing the sign out and sign in of students engaged in parent authorised activities.

Depending on which school you choose for your student you will need to contact either the Principal of the Broome Senior High School or the Principal of St Mary's College. There are limited places available so you are advised to contact one of these school principals as soon as possible.
