Great Southern Grammar occupies one hundred acres of waterfront land on Oyster Harbour and provides an outstanding learning environment. The school is located 17km from the City of Albany and allows the boarders to have access to all of the opportunities that a City provides. We celebrated our 10 year anniversary in serving the Great Southern region of Western Australia in 2008.

Boarding (Years 7-12) at Great Southern Grammar is where students become part of the extended family living close by on campus, making the most of our seaside environment with excellent facilities.

Our Boarding comprise of two modern, purpose-built extended family residences. Our central aim is to provide a secure “home away from home” experience that provides boarders with opportunities to develop life long learning strategies and a degree of independence that will serve them well in life beyond school.

Permanent house parents live in each residence where they extend genuine family values. Each residence has single and twin share bedrooms all with windows and pleasant rural outlook. Within each residence our boarders enjoy comfortable and spacious living areas and a fully maintained kitchen to facilitate snacks that supplement set meals.
