

Shalom College

Visitors

Some family/friends of boarders who have travelled long distances may be accommodated on-campus overnight, but not in the dormitories. If independent living units are available they may be allocated. If not, visitors have to seek outside accommodation. Arrangements have to be made through Head of Boarding. Visitors who intend to stay overnight must make arrangements with Head of Boarding at least one day in advance, and preferably more, prior to their arrival. Head of Boarding will notify the SRW of family members who are coming to visit and that approval has been granted. If visitors wish to take students away from the College, house parents must be notified and students signed out.
