

Rotary Residential College Inc.

Providing Quality Accommodation for Country High School Students

MISSION STATEMENT

Our College provides a seven-day boarding facility for high school children living in the Country Areas of Western Australia who are attending a Government High School or non-residential College in the Perth Metropolitan Area:

- To undertake specialised courses unavailable in their own locality and who would be disadvantaged having to undertake courses through Distance Education.
- To undertake a High School Education in the Metropolitan area where none is available in their District

Our College seeks to provide a setting where students:

- Will enjoy being part of a caring community designed to make a major contribution toward their future well-being.
- Will experience mutual care and responsibility in a "happy home away from home" atmosphere, albeit that certain rules and regulations are necessary and enforced, due to the very nature of this type of accommodation.
- Will be provided with emotional and spiritual support.
- Are encouraged to develop their individual potential; to understand each other's points of view and to grow in maturity.
