### **HOMEWORK POLICY**

#### **Expectations:**

Parents and caregivers can help their children by:

- Encouraging them to take increasing responsibility for their learning and organisation
- Observing and acknowledging their success and asking how their home and class work is progressing
- Attending school events, displays or productions in which their children are involved
- Encouraging them to set aside a regular daily session to read and complete homework
- Setting an example by reading themselves
- Contacting the relevant teacher to discuss any problems their children are having with homework
- Helping them to complete homework by discussing any key questions or directing them to resources. Usually it is better to encourage children to complete homework themselves.
- Helping them to balance the amount of time spent completing homework, watching television, playing computer games and engaging in other leisure or recreational activities.
- Checking whether homework has been set and ensuring they keep a homework diary
- Reading texts set by teachers. Discussing their child's response to the texts and asking to see the work they complete in relation to these texts.

Teachers can help their students by:

- Setting regular homework to help students establish a home study routine
- Setting varied, challenging and meaningful tasks related to class work that are appropriate to the students' learning needs.
- Giving students enough time to complete homework, taking into account home obligations and extracurricular activities.
- Assessing homework and providing timely and practical feedback and support
- Making effective use of student handbooks.
- Coordinating the allocation of homework by different teachers
- Helping students develop the organisational and time-management skills needed for them to be responsible for their own learning.
- Ensuring that students have good information skills
